

## **Ambience Alert**

*-Vincent Raja*

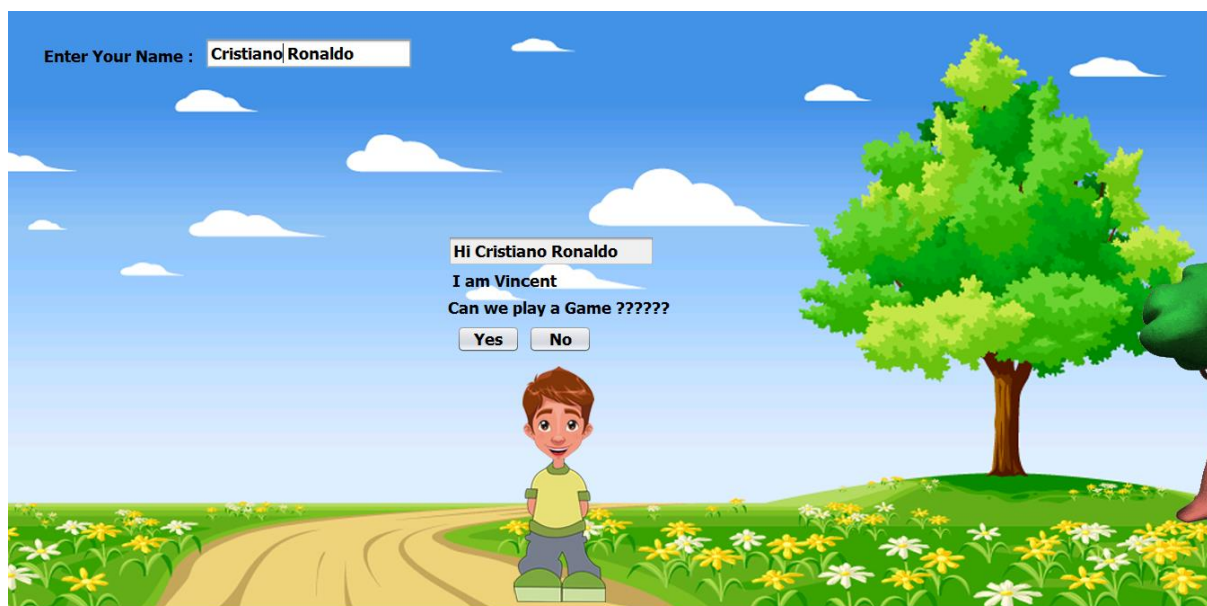

Education and Entertainment have become the two faces of a coin. The invention Ambience Alert – an informative educational interactive game is for youthful and adventurous minds.

The game provides an awareness in the players for the upkeep of their ambience. The game provokes the knowledge of the user with an interactive quizzing and essentials for green earth. The game is user friendly and children from 5 can play it.

Ambience Alert, also alarms the infirmity we craft to our living planet. The game would dish up as a safe edutainment for the growing generation.

It is a computer game coded in JAVA using Netbeans IDE
